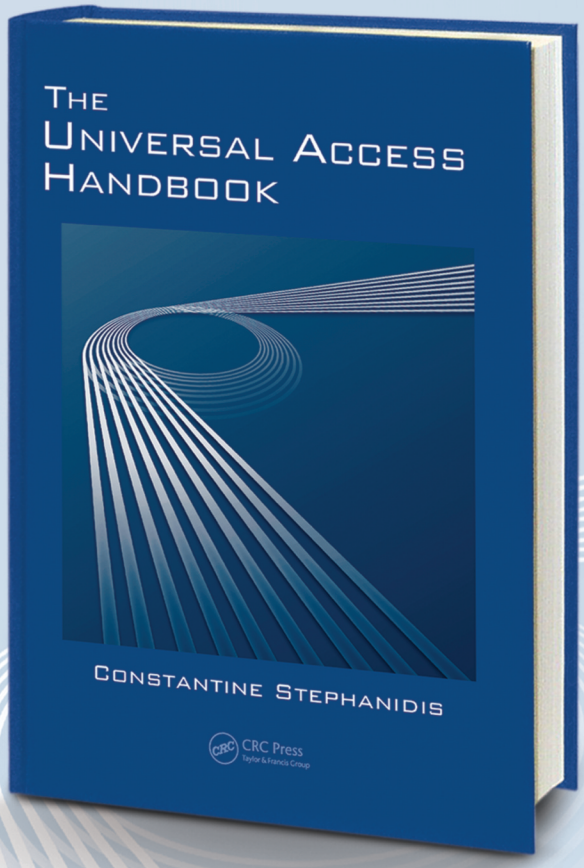
## *An Important Tool in an Increasingly Globalized Environment*

# THE UNIVERSAL ACCESS HANDBOOK



*Edited by*

**Constantine Stephanidis**

*Foundation for Research & Technology – Hellas (FORTH), Institute of Computer Science, Crete, Greece and University of Crete, Department of Computer Science, Crete, Greece*

Explore the unfolding scientific, methodological, technological, and policy issues involved in the process of achieving universal access in the information society.

### *Leading international authorities provide:*

- **A systematic view of methodologies, techniques, and tools**
- **Diverse and complementary approaches to accessibility and design for all**
- **A balance of methodological and practical perspectives**
- **New and emerging interaction techniques and devices**
- **Examples, case studies, and best practices**

An indispensible source of information for inter-disciplinary and cross-thematic study, the book provides a baseline for further in-depth studies, as well as an important educational tool in an increasingly globalized research and development environment.

# Table of Contents-The Universal Access Handbook

**Introduction to Universal Access**
Universal Access and Design for All in the Evolving Information Society, *C. Stephanidis*
Perspectives on Accessibility: From Assistive Technologies to Universal Access and Design for All, *P.L. Emiliani*
Accessible and Usable Design of Information and Communication Technologies, *G.C. Vanderheiden*

**Diversity in the User Population**
Dimensions of User Diversity, *M. Ashok and J.A. Jacko*
Motor Impairments and Universal Access, *S. Keates*
Sensory Impairments, *E. Kinzel and J.A. Jacko*
Cognitive Disabilities, *C. Lewis*
Age-Related Differences in the Interface Design Process, *S. Kurniawan*
International and Intercultural User Interfaces, *A. Marcus and P.-L.P. Rau*

**Technologies for Diverse Contexts of Use**
Accessing the Web, *V.L. Hanson, J.T. Richards, S. Harper, and S. Trewin*
Handheld Devices and Mobile Phones, *A. Kaikkonen, E. Kaasinen, and P. Ketola*
Virtual Reality, *D. Hughes, E. Smith, R. Shumaker, and C. Hughes*
Biometrics and Universal Access, *M.C. Fairhurst*
Interface Agents: Potential Benefits and Challenges for Universal Access, *E. André and M. Rehm*

**Development Lifecycle of User Interfaces**
User Requirements Elicitation for Universal Access, *M. Antona, S. Ntoa, I. Adami, and C. Stephanidis*
Unified Design for User Interface Adaptation, *A. Savidis and C. Stephanidis*
Designing Universally Accessible Games, *D. Grammenos, A. Savidis, and C. Stephanidis*
Software Requirements for Inclusive User Interfaces, *A. Savidis and C. Stephanidis*
Tools for Inclusive Design, *S. Waller and P.J. Clarkson*
The Evaluation of Accessibility, Usability, and User Experience, *H. Petrie and N. Bevan*

**User Interface Development: Architectures, Components, and Tools**
A Unified Soft ware Architecture for User Interface Adaptation, *A. Savidis and C. Stephanidis*
A Decision-Making Specification Language for User Interface Adaptation, *A. Savidis and C. Stephanidis*
Methods and Tools for the Development of Unified Web-Based User Interfaces, *C. Doulgeraki, N. Partarakis, A. Mourouzis, and C. Stephanidis*
User Modeling: A Universal Access Perspective, *R. Adams*
Model-Based Tools: A User-Centered Design for All Approach, *C. Stary*
Markup Languages in Human-Computer Interaction, *F. Paternò and C. Santoro*
Abstract Interaction Objects in User Interface Programming Languages, *A. Savidis*

**Interaction Techniques and Devices**
Screen Readers, *C. Asakawa and B. Leporini*
Virtual Mouse and Keyboards for Text Entry, *G. Evreinov*
Speech Input to Support Universal Access, *J. Feng and A. Sears*
Natural Language and Dialogue Interfaces, *K. Jokinen*
Auditory Interfaces and Sonification, *M.A. Nees and B.N. Walker*
Haptic Interaction, *G. Jansson and R. Raisamo*
Vision-Based Hand Gesture Recognition for Human-Computer Interaction, *X. Zabulis, H. Baltzakis, and A. Argyros*
Automatic Hierarchical Scanning for Windows Applications, *S. Ntoa, A. Savidis, and C. Stephanidis*
Eye Tracking, *P. Majaranta, R. Bates, and M. Donegan*
Brain-Body Interfaces, *P. Gnanayutham and J. George*
Sign Language in the Interface: Access for Deaf Signers, *M. Huenerfauth and V.L. Hanson*
Visible Language for Global Mobile Communication: A Case Study of a Design Project in Progress, *A. Marcus*
Contributions of “Ambient” Multimodality to Universal Access, *N. Carbonell*

**Application Domains**
Vocal Interfaces in Supporting and Enhancing Accessibility in Digital Libraries, *T. Catarci, S. Kimani, Y. Dubinsky, and S. Gabrielli*
Theories and Methods for Studying Online Communities for People with Disabilities and Older People, *U. Pfeil and P. Zaphiris*
Computer-Supported Cooperative Work, *T. Gross and M. Fetter*
Developing Inclusive e-Training, *A. Savidis and C. Stephanidis*
Training through Entertainment for Learning Difficulties, *A. Savidis, D. Grammenos, and C. Stephanidis*
Universal Access to Multimedia Documents, *H. Petrie, G. Weber, and T. Völkel*
Interpersonal Communication, *A. Waller*
Universal Access in Public Terminals: Information Kiosks and ATMs, *G. Kouroupetroglou*
Intelligent Mobility and Transportation for All, *E. Bekiaris, M. Panou, E. Gaitanidou, A. Mourouzis, and B. Ringbauer*
Electronic Educational Books for Blind Students, *D. Grammenos, A. Savidis, Y. Georgalis, T. Bourdenas, and C. Stephanidis*
Mathematics and Accessibility: A Survey, *E. Pontelli, A.I. Karshmer, and G. Gupta*
Cybertherapy, Cyberpsychology, and the Use of Virtual Reality in Mental Health, *P. Renaud, S. Bouchard, S. Chartier, and M-P Bonin*

**Nontechnological Issues**
Policy and Legislation as a Framework of Accessibility, *E. Kemppainen, J.D. Kemp, and H. Yamada*
Standards and Guidelines, *G.C. Vanderheiden*
eAccessibility Standardization, *J. Engelen*
Management of Design for All, *C. Bühler*
Security and Privacy for Universal Access, *M.T. Maybury*
Best Practice in Design for All, *K. Miesenberger*

**Looking to the Future**
Implicit Interaction, *A. Ferscha*
Ambient Intelligence, *N.A. Streitz and G. Privat*
Emerging Challenges, *C. Stephanidis*
